part:
"It should be clearly understood that
the decision for the German ships to
be interned, and not surrendered, was
made by the heads of the Allied gov-

ized to the extent that the German admiral was permitted to visit the ships, and correspondence with the sick, doctors and chaplains were distributed by the British boats. Coal, oil and water were supplied by British sources, but provisions and other supplies came from Germany. Mails, both outgoing and incoming, were censored. "The conditions of internment placed the internment of the ships under the surveillance of the Allies, so that if hostilities were renewed the latter would be in a position to seize the ships. They still, however, remained German property, with German personnel in charge of their upkeep, and, accordingly, facilities of intercommunication could not be denied to the German admiral who was in charge of the discipline and the internment economically.

YOUNG man, if you want to visit Germany and France as a mem-ber of the American Expeditionary the privilege of enlisting for overseas service will be withdrawn at midnight July 5.

Press dispatches from Washington Wednesday announced the decision of the War Department to withdraw this privilege, but no date was specified. Inquiry at the Publicity Bureau of the Army Recruiting Service brought forth the following authoritative statement:

"After midnight July 5, 1919, no men will be accepted for enlistment for service in the A. E. F. All men who have been accepted for enlistment in the A. E. F. prior to that date, will be transferred after enlistment with the least practicable delay to the Overseas Replacement Depot, Camp Meade, Maryland."

Another outstanding feature of the day's revelations was that the lecture bureau of the Rand School is booking Joseph E. Coldwell. sentenced to three years in Atlanta for violation of the espionage law, and under \$25,000 bail, as one of its star lecturers.

The burden of a great mass of the testimony yesterday connected the Rand School with Socialistic activity and with both the Right and Left wings of that organization.

Attorney General Newton laid the coundation for his action to cancel the charter of the American Socialist Society and wind up its activities in this state when he read into the record a letter from Miss Bertha H. Mailly, executive secretary of the society, and present at the session of the committee yesterday, stating that the Rand School is the property of the American Socialist Society was one chapter of the State of New York, and has been established since July, 1906.

Charges Conviction

"If find upon examination" said Mr. Newton, "that the incorporation of this American Socialist Society, instead of as stated, July, 1906, was perfected on September 27, 1901, and I offer in evidence a copy of the certificate of incorporation. I want to say in connection with this that I found that the American Socialist Society was recently convicted in this state of some act, and a sentence imposed of \$3,000, and an appeal is pending. I have istate a subpone duces tecum to have that record produced and when it comes in, in connection with these exhibits, I would like to have the record of that conviction go into the record at this point."

Later, when the record of conviction of the socialist Society was obtained, it was found that the exact wording of the indicatent was, "wilfully, knowingly and feloniously attempted to cause in later than the socialists now and the propaganda literature to capture that record produced and when it comes in, i

Mr. Stevenson at this point read into the record an editorial from "The New York Call." Socialist, praising the work and spirit of the negro, and also complimenting "The Messenger." a new Socialist paper for negroes, edited by Chandler Owen and A. Philip Randolph.

Mr. Stevenson read into the record a letter from the files of D. P. Berenberg, head of the lecture bureau, under date of October 3, 1916. addressed to M. E. Rabb, rural route 7, Xenia, Ohio, in which the writer says:

"In Connecticut the property of the members of the Moulders' Union has been attached by the employers for damages to trade caused by a strike. Not only the household goods, but the bank accounts of members have been thus attached. What are you going to do when the state robs you and your union and so makes you helpless to strike? There is only one thing to do: Take over the state. Are the members of your local prepared to take over and conduct wisely and well the affairs of your town and county? Are you ready to meet the militia when the powers of the state and courts are against you? Are you arming yourself

"Observe good faith and justice toward all nations. Cultivate peace and harmony with all. Against the insidious wiles of foreign influence the jealousy of a free people ought to be constantly awake. Excessive partiality to one foreign nation and excessive dislike of another cause those whom they actuate to see danger only on one side and serve to veil and even second the arts of influence on the other. Real patriots who may resist the intrigues of the favorite are liable to become suspected and odious while its tools and dupes usurp the applause and confidence of the people to surrender their interests. If we remain one people, under an efficient government, the period is not far off when we may chose peace or war, as our interest, guided by justice, shall counsel.—George Washington."

Another find from the files of Mr. Berenberg, in charge of correspondence and lectures, was read into the record by Mr. Converse, of Attorney General Newton's staff. It carried the address 803 West Madison Street, Room 405, Chicago, and was directed to Scott Nearing. The letter follows:

"Dear Comrade: Some time ago I wrote you about a visit to Bishop William M. Brown, who resides at Galon, Ohio. Bishop Brown is a member of the Socialist party, a Bishop of the Episcopal Church and a heretic of the reddest hue. Your visit to his residence was cancelled because of your trial.

House Committee Arranges for Kentuckian to Retort to Senator Pomerene

Senator Pomerene

New York Tribune
Washington Bureau
WASHINGTON, June 27.—A situation without a precedent has been created by the Senate resolution calling upon the House to take action concerning remarks made by Representative Johnson, of Kentucky, about Senator Pomerene, of Ohio, on Tuesday, declared Representative Campbell, of Kansas, chairman of the House Rules Committee, to-night.

Representative Johnson brought up the matter to-day on a question of personal privilege. Declaring that he was ready to substantiate his charges against Senator Pomerene with documentary evidence, he asked the Speaker to take under advisement the matter of whether Senator Pomerene could be named in person in his reply.

A sub-committee of the Rules Committee spent the afternoon drafting a suitable resolution to meet the situation. This committee to-morrow, which in turn is expected to report to the House to-morrow afternoon.

WASHINGTON, June 27.—Both the louse and Senate looked into the Rusian situation to-day.

The Senate passed the resolution incomments and the president to incomment and the senate of the government's olicy with reference to Russia. Under his resolution, which was passed ithout a dissenting vote, Senator ohnson demands that complete details of the reason for American occupation of Russian territory be furnished. The esolution likewise calls for the imediate withdrawal of American troops of Russian territory.

Great Britain, France and Italy on July 20 and 21 to protest against the Russian policy of the Allies. In England the demonstration is not likely to take the form of strikes, though that is the plan in Italy and France.

To-day's decision at Southport was startling, as it was expected after Wednesday's preliminary debate that the idea of direct action on political questions had been abandoned. It shows in a striking manner the power of Robert Smillie, the leader of the mass of the workers.

It is unnecessary to state that Clynes and Henderson, who have visions of the convention, as it means a weakening of labor's campaign on constitutional lines.

The decision is bound to allenate many voters who had leaned toward the Labor party because of dissatisfaction with the Liberals but who cannot uphold class action. The Senate passed the resolution introduced by Senator Johnson, of California, calling on the President to inform the Senate of the government's policy with reference to Russia. Under this resolution, which was passed without a dissenting vote, Senator Johnson demands that complete details of the reason for American occupation of Russian territory be furnished. The resolution likewise calls for the immediate withdrawal of American troops from Russian territory.

On the House side, Acting Secretary of State Polk testified before the Committee on Expenditures in the State Department that no interest has yet been paid on \$187,000,000 advanced by the United States government to the Kerensky regime.

On the House side, Acting Secretary of State Polk testified before the Committee on Expenditures in the State Department that no interest has yet been paid on \$187,000,000 advanced by the United States government to the Kerensky regimé.

Mr. Polk's testimony was given at a hearing on Representative Mason's resolution inquiring into the payment of interest on Russian bonds of the Czar's regimé held in this country by private individuals and the use of American troops in Russia.

Mr. Polk denied that Former Russian Ambassador Boris Bakhmetieff used money loaned by the United States to pay interest charges on privately owned bonds issued by the Czar. According to Mr. Polk, Ambassador Bakhmetieff had on deposit in this country \$20,000,000 to use for such purposes.

The money used to pay for recent advertisements in this country did not comper from any sum lent by the United States, Mr. Polk also declared. The SOUTHPORT, England, June 27 (By

referee adopted a resolution condemning conscription and recommending that the trade union congress and the "triple alliance" take immediate industrial action to abolish it.

Another resolution adopted endorsed the six-hour day in all industries.

Before City Can Be Sure of Fruit and Vegetables;

Although the four thousand drivers, chauffeurs and porters engaged in the fruit and vegetable traffic resumed work yesterday morning after a four days' strike, market conditions did not approach the normal. Many smaller dealers utilized the shortage for petty profiteering. Between 35 and 40 per cent of the normal suply of the fruits and vegetables was on hand in the stores here yesterday. At the office of J. L. Lippmann, head of the dealers' committee, it was said conditions would be restored to normal in a few days.

would be restored to normal in a few days.

The price of new potatoes and peaches has advanced as a result of the strike, it was announced by the head of the produce division of the Bureau of Markets of the U. S. Department of Agriculture. Potatoes were selling yesterday at \$7 a barrel, compared with \$6 before the strike. Peaches were quoted at \$3 and \$5, an average advance of \$1 a basket for each grade. The prices will not be reduced for several weeks, it was declared, because shipments which would ordinarily come to New York are being diverted westward and western markets are paying better prices.

The embargo on shipments was lifted early yesterday by the railroad administration, but the receipus were far below those required to meet the city's needs. Yesterday's receipts, compared to the normal, follow:
